TECHNICAL SKILLS

FRONTEND

Vue.js, Nuxt.js, Nuxt UI, TypeScript, JavaScript, Pinia, Vue Router, Vite

BACKEND & DATA

REST APIs, Supabase, PostgreSQL, SQL

TOOLS & PRACTICES

Git, GitHub, Vercel, Cloudflare Workers, Zod, PWA, Responsive UI/UX

SOFT SKILLS

- Analytical Thinking & Problem Solving
- Team Collaboration
- Adaptability & Continuous Learning
- UI/UX-oriented Development
- Leadership

LANGUAGES

English — B1
Turkish — Native

CERTIFICATIONS

SUMMARY

4th-year Computer Engineering student focused on frontend and full-stack web development with Vue.js, Nuxt, and TypeScript. Hands-on experience building and deploying production-ready applications, integrating REST APIs, and working with Supabase/PostgreSQL. Completed a software development internship and developed multiple deployed projects involving authentication, state management, API integration, and responsive UI development.

EDUCATION

Çanakkale Onsekiz Mart University
B.Sc. Computer Engineering

2023 – Present

EXPERIENCE

Software Developer Intern

Aug 2026 – Sep 2026

trex Dijital Akıllı Üretim Sistemleri A.Ş. · Bursa

- Built and shipped multiple Vue.js / Nuxt applications with responsive UI, dark/light themes, and Vercel deployment.
- Integrated REST APIs (Ticketmaster, TMDB, AfterShip, OpenStreetMap) and managed client state with Pinia and Local Storage.
- Worked with TypeScript, Nuxt UI, Zod validation, and secure API patterns (Cloudflare Workers proxy).

PROJECTS

CineRota

Vue 3 · Vite · JavaScript · TMDB API · Cloudflare Workers

Movie discovery app with search, categories, detail pages, favorites, and trailers. Secured TMDB access by proxying requests through Cloudflare Workers so API keys stay server-side.

Evently

Nuxt 4 · Nuxt UI · TypeScript · Pinia · Zod · Ticketmaster API

Event discovery platform using live UK Ticketmaster data. Features city/category/date filters, detail pages, favorites with persistent storage, and dark/light mode.

Damga

Nuxt · TypeScript · Leaflet · OpenStreetMap · Nominatim · Pinia

City exploration and personal travel archive app. Map-based place discovery, search, visit tracking, ratings, and notes persisted in Local Storage.

Kargo Radar

Nuxt 4 · Vue 3 · Bootstrap 5 · Pinia · AfterShip API · PWA

Multi-carrier package tracking app supporting 9 cargo companies. Normalized heterogeneous API responses into a shared format with search history, theme support, and PWA installability.

YönetiX

Nuxt 4 · Vue 3 · TypeScript · Nuxt UI · Supabase · PostgreSQL

Apartment management system with admin and resident roles: dues, payments, announcements, polls, and fault reports. Built with Supabase Auth, RLS, realtime notifications, and Vercel deployment.
